Ofcr Roysden from the Central Police Station how are you?

We are asking for your help in forwarding this E-mail to your contacts within the downtown area

After the terrorist incident in Orlando the LAPD is asking for the public to use the iwatch program and "If You See Something.....Say Something"

We are hoping that Downloading the APP to their phones would be the most useful and comfortable way to use the program

In the APP STORE the name is "iWATCH LA"

The attachments are a brochure on the program

Any help you can give would be appreciated
